SUMMARY

I am a Junior Front End Developer, I would love to be able to join a company in which I can apply all my knowledge and, at the same time, that allows me to develop professionally. I am passionate about the world of programming and web development and, thanks to my training, I believe that I can add value and continue to develop professionally in a company that matches my values and expectations.
As a person I have various personal skills such as: great motivation, good communication, willingness to learn, ability to overcome challenges that arise, sense of responsibility, I am able to adapt to any circumstance and always give the best of myself. Any project, at the same time that I strive to work as a team and promote companionship as values.
